Well done, developer. Only downside is that the level design is a bit too challenging, so the game can be difficult in the end. While it doesn't take long to get into the game, it is tricky to get the full 2x and 3x points. This is my personal favorite game in the group. If you want more level diversity, this game has that. The Plague (MOD, simple money) - a pretty cool game with a good atmosphere. An interesting premise, well-detailed levels and great graphics. The gameplay is a bit repetitive though, and the difficulty is too low. Also, the game is very short and has quite a few glitches. Poltergeist (MOD, simple money) - a solid game, with a fun concept and a decent level design. I like the graphics and the soundtrack. The gameplay gets repetitive, though. The difficulty is about right and you can expect to get full 2x and 3x points. Monster World (MOD, simple money) - a fun game with an interesting story. The gameplay is fun and easy to get into. The levels are simple and they offer a nice variety. The developers gave us some awesome music as well. Overall, a nice game. Our story is unique. A world where monsters have become very popular, the legend says that we would become only alive when we fight them. But, are we really ready? As you know, this is not your average survival game. You play as a band of six heroes. Their only goal is to survive against all the monsters and reach the end of the game. Each level offers a specific challenge, and it is up to you to find the right skills to beat it. You will be able to unlock 30 difficulty levels, which will increase your hunger and stamina. If you manage to survive 5 levels, you will be able to fight the final boss. So what are you waiting for? Start playing! MUSIC - The music and sound design is quite good, and is composed of old-school chiptunes. You will definitely enjoy listening to it. The soundtrack is available for free, but you can also buy a couple of packs in the shop. All of them are nice, and they will fit your needs. GAMEPLAY - The gameplay is a classic run and jump style. In order to survive, you have to collect food and upgrade your abilities. You can find a ton of food at the start of 82157476af
